The mid-season milestone has been reached, the entire start of the season was marked by exceptional weather which was not predictable, then since January much more contrasted due to tropical depressions forming one behind the other at the east of Madagascar and generally taking the southwest direction along the Reunion or Madagascar axis.

And then, you will tell me; this had the consequence of bringing us regular rain, a magical fact for the island of Rodrigues, but also sea conditions that were sometimes not comfortable and tiring, forcing us to modify our programs, but our clients caught fish and were generally left happy with their stays with for some the reservation for next year already validated; Many thanks to everyone for your trust.

Hawkins in the spotlight once again is not customary, we are the only ones to take you there and make you experience unforgettable fishing sensations, this is the case of the Dossantos family accompanied by the Tassin family, rest assured without the 7th company...! 😊.

Despite health problems, Tassin from the first evening on the bench rewarded us with the big one of the jigging trip, and all the while mastering which commanded the admiration of his son present and galvanized the whole team. Indeed the first day had been not bad, but not easy because the activity of the fish was not frank due to an excessive water temperature almost 31° direct effect of EL NIGNO this famous episodic current of hot water. This forced me to move around a lot during the day to identify the hot spot where we would have the maximum chance of catching a large Dogtooth Tuna, objective achieved.

Hawkins, will still have been up to par with varied and numerous fishing, Yellow tuna, Wahoo but also Marlin, beautiful varieties for Remy, for Bastien large wahoo, Yellow tuna and jigging trevally, amberjack, doggies etc. Trevally GT for Tassin Junior for whom it was the first exo fishing...

The following group Serge, Béa, Daniel and Michael, regulars of L'Oiseau des Iles II and Rodrigues aficionados, had a tour of the big banks on their program. We were unable to do Hawkins due to the weather but the week of fishing was no less magnificent with a first black Marlin for Daniel then a blue for Noel who came into the group for the first time just that, accompanied by 'a pretty amberjack for Serge in the evening on the jigging session, great day.

Rewarded with a nice catch of Yellow tuna in the morning will be marked by a big bite of Marlin on a konna very close to the boat, certainly a very big fish which will be released at the end of the first rush Béatrice is already in place on the fishing chair. fight ready to fight, that will be for the next time Béa...

Everyone will have taken their Marlin well done Team.

The next group came for the first time from Corsica for the birthday of Jo, an informed and passionate fisherman at the initiative of Jean Maxime accompanied by Jean-François and Benjamin who wanted to discover heavy Jigging in an exotic way, what better place than Rodrigues island for That. Due to disrupted weather conditions due, as explained above, to depressions and cyclones over Madagascar in the Indian Ocean, we decided to modify the program with a 3-day jigging trip around the island of Rodrigues and the shallows of the wide.

A Trip that everyone really appreciated, great atmosphere, some problems with seasickness at the beginning then the passion and the will tamed the sea accompanied by coaching followed and put into practice as the drifts progressed, the activities became efficient and organized producing a large variety of pretty fish and above all a beautiful Doggy jigging as a highlight. The unhooks and breakages on the previous doggies are the learning and the passing exam for the next time in Hawkins.

As an aside, the Corsican team, like others, trusted us with the supply of jigs which have once again proven their superior effectiveness to large numbers of others provided by the fishermen themselves. I myself have chosen a selection of models and colors tested and approved in view of the superior results of these models and what is more at very competitive prices which helps to avoid exorbitant excess weight in suitcases. Take the jigs with us, guaranteed results and no unnecessary expenses.

For those who want to join us for a new fishing adventure we have availability for 2024:

**From October 29 to November 4, 2024**  
**From December 9 to 18, 2024.**

**If you are looking for a gift idea for Christmas, why not treat yourself to a fishing trip to Rodrigues Island, with family or friends, from December 21 to 30.**
