

Our 2022/2023 season is over, I wanted to thank you all for your trust and loyalty for many of you and also to the new arrivals who for some have already reserved their place for the next season. We have 6 formulas in total to offer you in order to be able to suit everyone, from day fishing around Rodrigues Island back in the evening and by programs of 2/3/4 days to the tour of the Hawkins banks 89H over 5 days, something to suit everyone and all types of fishing.

In particular, in honor of the Hawkins Banks, where as you know we are the only ones to make you fish there, this has become our trademark and especially our garden. It will be an honor and a pleasure to see you all again next season.

Fishing on the Hawkins Bank is an adventure, due to the distance of 100 Nautical Miles, where the fish, the pelagic have a typical behavior of the open sea, that is to say essentially in relation to the current which influences all the bio mass and therefore the food.

It will be an honor and a pleasure to meet you all next season. Hence the reason, to have to move by trolling to find the activity that moves with the current variations, because yes the current changes direction very often due to what we could call the current vortices very specific to this area of the Indian Ocean, which when they overlap causes these famous current changes to which I pay all my attention.

This is essential especially for jigging because what makes TDC and other predators rise is this activity and this explains why it is necessary during the day to move several times in order to be at the right time in the right place.

I can assure you that in the evening your arms will hurt, especially when this research has been carried out.

For jiggers not wanting to drag in this case we will do the program around Rodrigues Island where it is more suitable. An important point that I must remember; the equipment especially jiggering, too many fishermen arrive with unsuitable equipment which is not recommended in the list of equipment that you are provided with when booking your trip.

This is really a shame, I strongly advise you to send your list of equipment on my behalf to a professional such as pechextrem.com with Stéphane who will serve you at the best price and above all with top-notch equipment.

Please note, Major changes for next season, concerning the weight in your suitcases, we suggest that you provide the Jigs on site at the market price to be reserved when booking.

On the boat side, improving the comfort of the cabins with the installation of an air extractor to create good ventilation even on the way back from the bench, it changes life.

We are working on a new, clearer, more intuitive website, suitable for all types of devices, with the aim of providing you with information and above all facilitating information gathering.

We are always working to improve our services and benefits. We love fishing, our job and are happy to share it with you.

We are very satisfied with this season from all points of view, the fishing first of all was excellent in trolling and jigging where almost all of the Doggies and Jacks were caught in assured sport jigging, the trolling also greatly animated the courses with all the usual species present here.

It would take far too long to give you a summary of everything, our selection of photos will give you an idea of the action on board "L'Oiseau Des Iles II" as well as the latest articles and reports in excellent magazines such as "Voyages de pêche No 156 and Fishing et travel No 23" where a report of no less than 9 pages will take you there on this adventure.

I repeat, fishing has been up to par again this year, promising great outings from the end of September when we resume for the 2023/2024 season.

We have some availability for this season, as well as boat sharing offers for single fishermen allowing them to join a group and thus enjoy these outings on the banks which will remain unforgettable.

Cyril Faure and all his team wish you an excellent summer vacation and are waiting for you next season for new adventures.
